

Search Visibility That Helps Buyers Find You

A productized visibility service for service businesses that need clearer pages, stronger trust, and more chances to be found before customers call a competitor.

Problem

Customers cannot clearly find the right service, city page, proof, or next step.

VestBlock Fix

We create a clearer search and trust plan with prioritized pages, customer questions, and authority ideas.

Outcome

A monthly plan that helps the business become easier to find and easier to trust.

What we build first

- A plain-language review of the current website, calls to action, service pages, and trust gaps.
- A customer-question map so the site answers what buyers are already searching before they call.
- Priority service, city, and credibility pages that support the strongest revenue offers first.
- Google and AI-search friendly content direction without promising rankings or traffic guarantees.
- Monthly next steps so the business is not stuck paying for a vague marketing retainer.

Packages

Visibility Starter

Website review, customer-question map, monthly content plan, and visibility scorecard.

\$299/mo

City Expansion Engine

City and service-page priorities for businesses expanding into more locations.

**\$750 setup +
\$349/mo**
